About Us

SI Healthcare offers an industry-leading revenue cycle management solution. It's a combination of people, products, and services. It consists of expertise, web-based practice management software, and a comprehensive suite of management services, from credentialing to eligibility verification to claims submission to receivables collection. With multiple offices in the U.S. and abroad, we bill on behalf of hundreds of physicians across 50 specialties in more than 16 states. Our team includes Practice Administrators, medical doctors, AAPC-certified coders, software architects, and account managers who work closely with our clients to maximize your results.

Our Difference

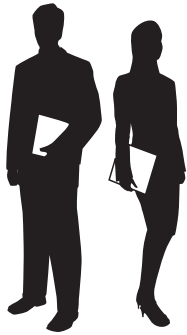

- SI provides advanced, web-based technology backed by billing experts with hands-on experience implementing best practices.
- SI provides a superior billing solution at a very competitive rate. We use our scale, our global labor force and advanced technology to improve results at a lower cost.
- We make it easy to implement with minimal up-front costs, set up in weeks, and simple to use tools.
- SI provides you with the business intelligence reports you need to manage your practice effectively.
- SI has the flexibility to work with clients of any size – from solo providers to large hospitals.
